

### Phase 3

Name: Juwon Wharwood

ID# 02987098

Course: CSCI-136-03

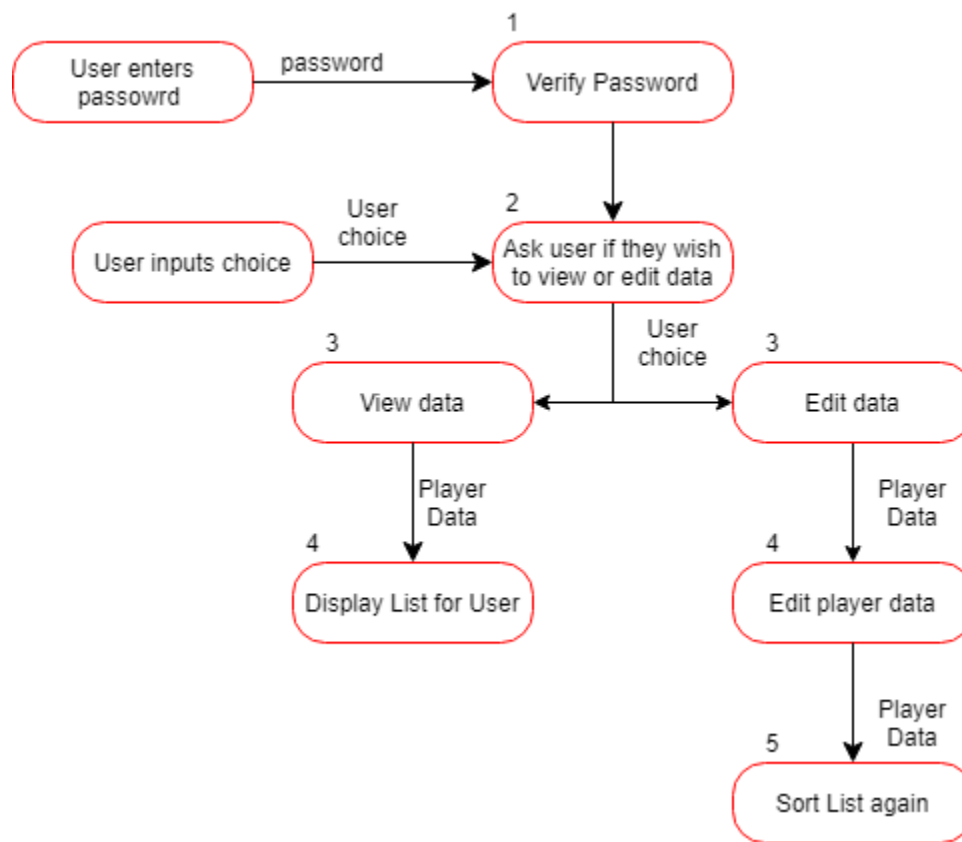

Actor Table

User	Description
Team Scout/ Analyst	Scouts can use the system to enter the data on players that they become interested in. Based on the software assessment scouts will get an unbiased review on all the players they chose and have those players listed in order of efficiency
Director of Sport/Manager	Director of sport in some clubs have the final say on what players are signed and what players are sold. The information displayed can be used to justify decisions made
Club Owner(s)	Most owners have the ability to veto what players a club signs. This rarely happens because owners don't often take part in scouting meetings. This software will clearly label and display the rankings of targets to perhaps sway the owners decision on how their money is spent.

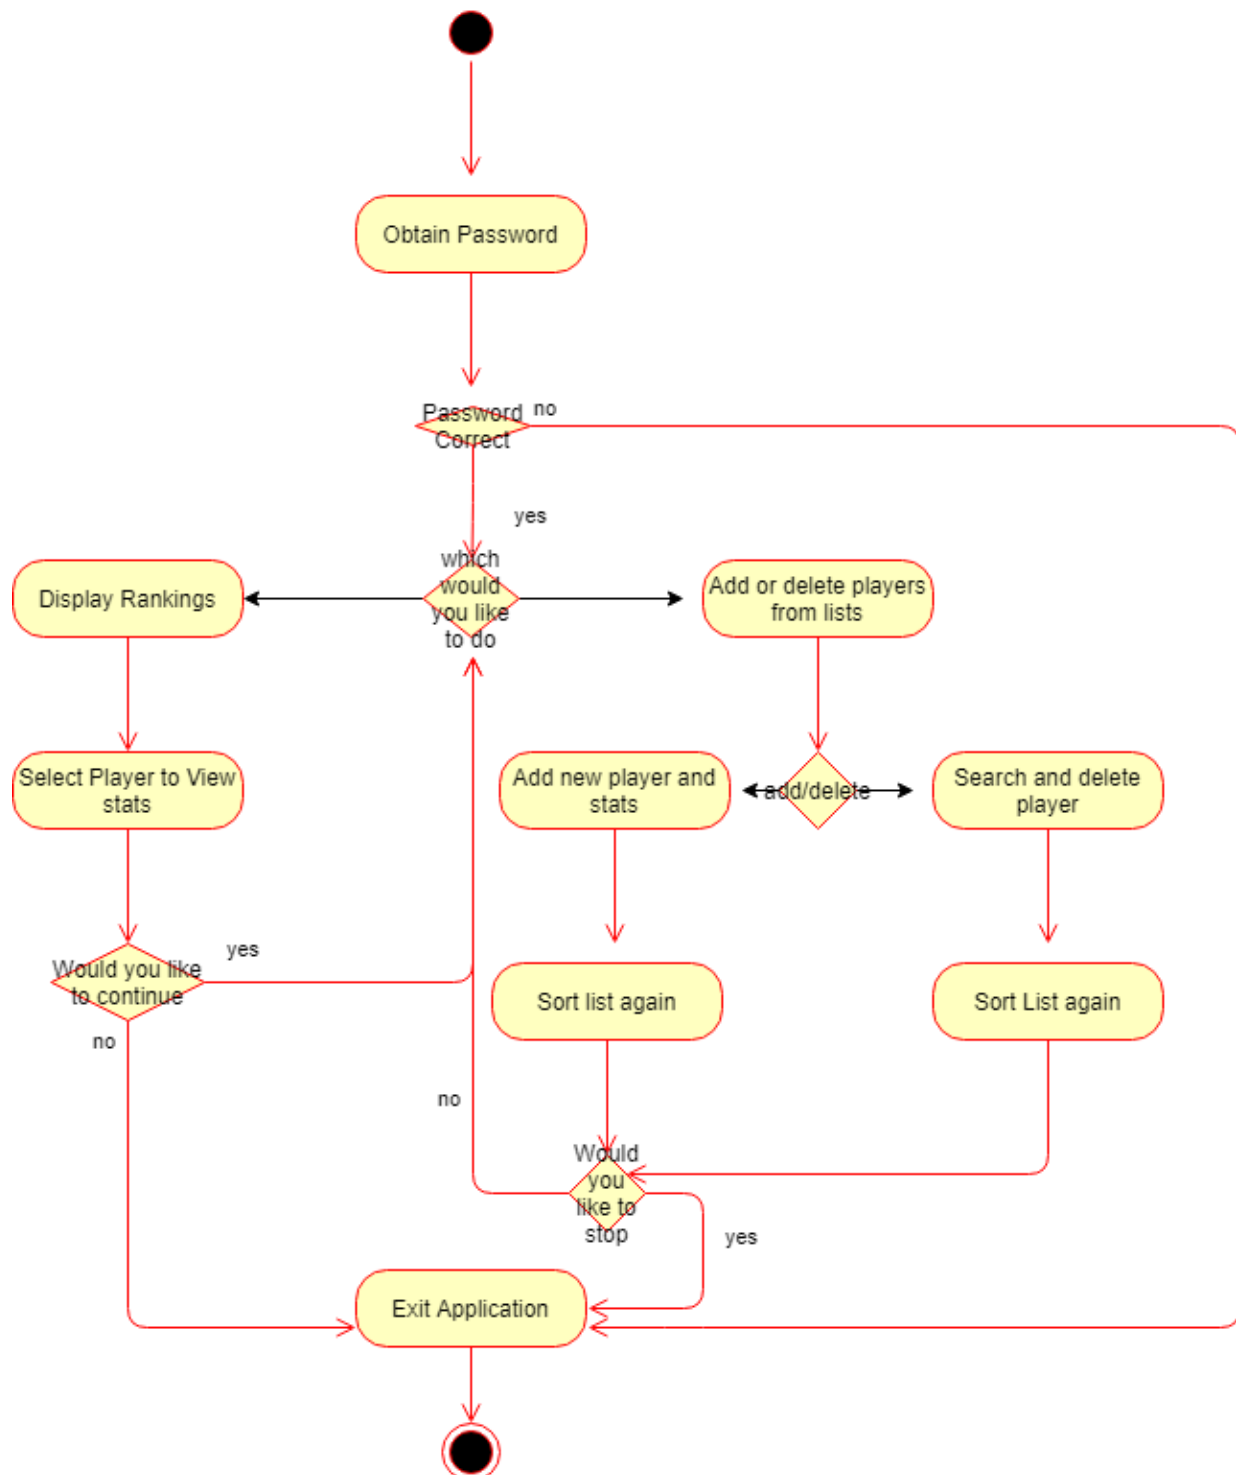

## Use Case

Case 1	Scout or Analyst wishes to add or delete a new player to the list	The scout will enter the password and select the option to add o delete a player from the list. He/She will enter the data as prompted and the information will be added to the list before the players and ranked again. There is also an option to remove the players from the list
Case 2	Owner can display all targets and see their information	The owner can choose to display different lists of players depending on the class of each player. All the forwards will be on one list all the midfielders and defenders will be ranked in a similar fashion. Each player's profile can be accessed from this screen
